A RESOLUTION OF THE MARICOPA ASSOCIATION OF GOVERNMENTS
APPROVING THE 2013 MAG SOCIOECONOMIC PROJECTIONS

WHEREAS, the Maricopa Association of Governments (MAG) was formed in 1967 as a Council of Governments and provides regional planning assistance in transportation, air quality, water quality, solid waste, population projections, growth/open space, human services, 9-1-1 and public works; and

WHEREAS, an official set of projections is required to be used in transportation, air quality and water quality management plans as well as providing the base for all other regional planning activities; and

WHEREAS, Maricopa County is the fourth most populous county in the nation and from 2000 to 2010 grew by 24 percent, the fastest growing county among the ten most populous counties; and

WHEREAS, up-to-date projections are crucial for managing future growth; and

WHEREAS, the general plans of local jurisdictions go beyond their current corporate limits in order to plan for and guide future growth; and

WHEREAS, socioeconomic projections require that the future corporate limits and a consistent geography over time be established for each jurisdiction; and

WHEREAS, Municipal Planning Area boundaries are determined by MAG member agencies in consultation with MAG; and

WHEREAS, Municipal Planning Areas identify the anticipated future corporate limits of a city or town, have been used by MAG in preparing projections since 1983, and are used in the MAG 208 Water Quality Management Plan;

NOW THEREFORE, BE IT RESOLVED that the Regional Council for the Maricopa Association of Governments approves the Municipal Planning Areas and the 2013 MAG socioeconomic projections of population, housing and employment for July 1, 2010, 2020, 2030 and 2040 by Municipal Planning Area and Regional Analysis Zone for use in all regional planning activities.

PASSED AND ADOPTED BY THE MARICOPA ASSOCIATION OF GOVERNMENTS THIS NINETEENTH DAY OF JUNE, 2013.

Mayor Marie Lopez Rogers
Chair, MAG Regional Council

ATTEST:

Dennis Smith
MAG Executive Director

APPENDIX A

NOTES AND CAVEATS FOR 2013 PROJECTIONS

1. The projections by Municipal Planning Area (MPA) and Regional Analysis Zone (RAZ) were prepared to be consistent with the April 1, 2010 Census and have been prepared for July 1st of the base year 2010 and projected for July 1st of 2020, 2030, and 2040.
2. The 2010 housing and population base was developed by aggregating Census 2010 data to Traffic Analysis. Census place mismatches were corrected in this process and are reflected in the Base 2010 MPA and RAZ numbers.
3. The population projections are for resident population only and do not include nonresident seasonal or transient population.
4. The projections are required to use the latest Census as the base. The 2010 Census data were released in July 2011. Subsequent to the release, the Arizona Department of Administration, Office of Employment and Population Statistics, prepared a new set of Maricopa County projections consistent with the 2010 Decennial Census. These County projections were recommended for approval by the MAG Population Technical Advisory Committee (POPTAC) in October 2012 and the Management Committee in November 2012. The projections were approved by the Regional Council in December 2012.
5. The MAG socioeconomic projections by MPA and RAZ were recommended for approval by the MAG POPTAC on May 28, 2013 and by the MAG Management Committee on June 12, 2013. The projections were approved by MAG Regional Council on June 19, 2013.
6. The projections include only the Maricopa County portion of Apache Junction, Peoria, Queen Creek, Wickenburg, and the Gila River Indian Community.
7. The projections were based upon the latest version of each member agency's land use plan. These plans are subject to change.
8. The databases and assumptions upon which the projections are based have been reviewed by MAG member agencies, revised by MAG staff based on input received and approved by members of the MAG POPTAC.
9. The projections are based upon previous review and local insight by members of the MAG POPTAC.
10. The "other" employment category includes work-at-home, construction employment, and non-site based employment. Because construction and non-site based employment follows development, employment projections may show declines in future years.
11. The projections should be used with caution. They are subject to change as a result of fluctuation in economic and development conditions, local development policies and updated data.

APPENDIX B

GLOSSARY OF TERMS

Base Population: Population base for the current estimate, usually the last Decennial Census or a special census or census survey taken since then.

Construction Employment: Employment associated with construction sites across the region but not with a specific land use. This is included in the Other Employment category. Because construction employment follows development, employment projections may show declines in future years.

Employment: The total number of jobs of persons receiving wage or salary to work in a given industry. This measure of employment only includes persons over the age of 16 and does not include working within the home without outside wage or volunteering. An employee works in the designated weekly time period at least one hour.

Group Quarters: Group quarters are places where people live or stay other than the usual house, apartment, or mobile home. Two general types of group quarters are recognized: institutional, i.e. nursing homes, mental hospitals or wards, hospitals or wards for chronically ill patients, hospices, and prison wards; and noninstitutional, i.e. college or university dormitories, military barracks, group homes, shelters, and missions. Group quarters may have housing units on the premises for staff or guests.

Household: An occupied housing unit.

Housing Unit: A dwelling unit that could be single family, multi-family, mobile home or other type of unit.

Industrial Employment: Employment in areas designated for industrial land use.

Land Use: The predominant activity that is occurring in a geographic area.

Municipal Planning Area (MPA): An MPA represents the area of planning concern for a municipality and is based upon its anticipated future corporate limits.

Non-site Based Employment: Jobs that are not site since the nature of the work is such that it cannot be accomplished in a single location, and the location of the work site varies from day to day. Examples of such jobs include temporary work agencies, landscaping companies, and cleaning/janitorial companies. This sector of employment follows population and employment and may show declines in future years.

Occupied Housing Unit: A housing unit is considered occupied if a resident person or persons are living in it or if the occupant is only away from the unit temporarily, e.g., away on vacation.

Office Employment: Employment that is located in areas designated for office land use.

APPENDIX B

Other Employment: A residual of total employment minus employment in areas designated for industrial, office, public and retail land uses. It includes, but is not limited to, medical, transportation, utilities, communication, hotel/motel, construction and non-site based employment.

Population in Households: The population in occupied housing units.

Projection: Numerical outcome of a set of assumptions (based on past trends) relating to future trends. The numbers are conditional upon these assumptions being fulfilled.

Public Employment: Employment located on land designated for public use.

Regional Analysis Zone (RAZ): An area within an MPA. RAZs can be either coterminous with or may be aggregated to form an MPA.

Resident: a resident of a geographical area is a person who reports that his or her regular place of residence is within that geographical area.

Resident Population: Resident population is defined as the people who live in a specific area more than six months a year. Resident population may live in housing units or in group quarters.

Retail Employment: Employment that is located in areas designated for retail land use.

Total Resident Housing Units: The combination of occupied and vacant resident housing units.

Total Resident Population: Includes those residents living in housing units and group quarters.

Work-at-Home Employment: Employment where the primary place of work is at home.
